

Sector Frequency Chart
ZMP and ZAU - High Altitude
showing typical sector configurations during daytime shifts

- ZMP34 = Sector Number
FL370+ = FL370 and above
FL360- = FL360 and below
★ = secondary frequency or used when required
↑ = direction sector merges, if more than 2 listed
xc = frequencies cross-coupled
H = high altitude frequency when part of high-low sector
R = sector rarely used
? = sector data unconfirmed
(*) = sectors combine as required
(M) = sectors always combined

not to be used for navigation, d'uh
